"ROSE GARDEN"  
QUILT

CUT SIZE - DOUBLE - 84x100"

PINK COMBINATION

COLOR	BUCILLA COLOR NO.	D·M·C COLOR NO.	SKEINS REQUIRED
Lt. Pink	2203	776	4
Med. Pink	2206	899	1
Dk. Rose	2058	601	1
Lt. Yellow	2574	743	1
Dk. Green	2470	470	2

YELLOW COMBINATION

COLOR	BUCILLA COLOR NO.	D·M·C COLOR NO.	SKEINS REQUIRED
Yellow	2576	743	2
Orange	2578	742	1
Dk. Orange	2477	947	1
Dk. Green	2406	367	1
Green	2470	470	4

First cut strips apart along broken lines, then match and sew strips together as shown in illustration. Proceed with applique - quilting is done later.

The Six Strand Floss may easily be separated into 1 or more strands. Use 1 strand of matching floss for attaching applique patches. For convenience in working cut the floss into 36" lengths.

**APPLIQUES - (STEMS - bias strips):** Pin in place along guide lines, turning under raw ends. Slip stitch edge to foundation, using 1 strand of matching floss.

**APPLIQUES - (PATCHES):** Cut out on broken lines in order required. Slash all inside curves to allow for easier turning. Turn under all edges on solid lines, with the exception of edges that fall under a piece that is appliqued later.

Pin or baste in place and slip stitch to foundation in numerical order, using one strand of matching floss.

QUILTING

We recommend Bucilla Quilt Back No. 25001

THE MATCHING QUILT BACK CAN BE ORDERED BY YOUR DEALER TO ASSURE YOUR GETTING THE SAME QUALITY FABRIC AS THE QUILT TOP.

Batting (for padding) is available at all stores in size 81 x 108" and is sufficient to pad the quilt if instructions are followed correctly. Press embroidered quilt top carefully on reverse side. Place batting on wrong side of quilt top using the outside stamped lines as a guide. Cut away excess batting and (if necessary) add strips of batting to the width of quilt completely covering areas between guide lines (it is unnecessary to join cut pieces of batting). Place quilt back over batting and baste all pieces - (top, batting and back) together to prepare for quilting. Use white sewing thread for quilting - do not knot thread to fasten at ends of quilting - take a few stitches through all layers at beginning and ending of thread as this is more secure and neater than a knot.

**IMPORTANT!**  
**SEW STRIPS TOGETHER BEFORE APPLIQUEING.**

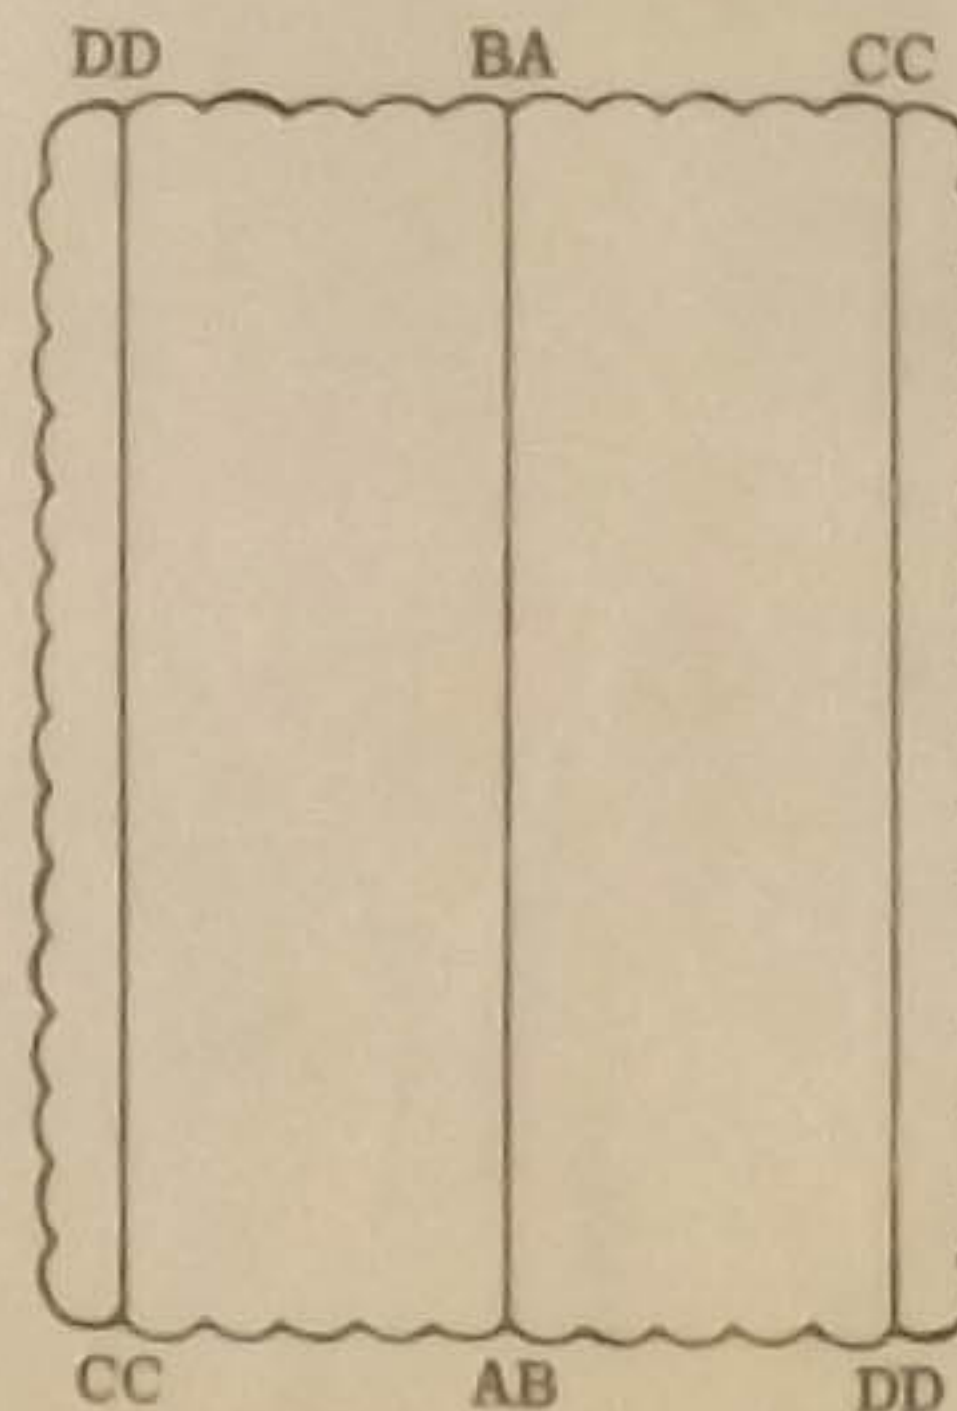

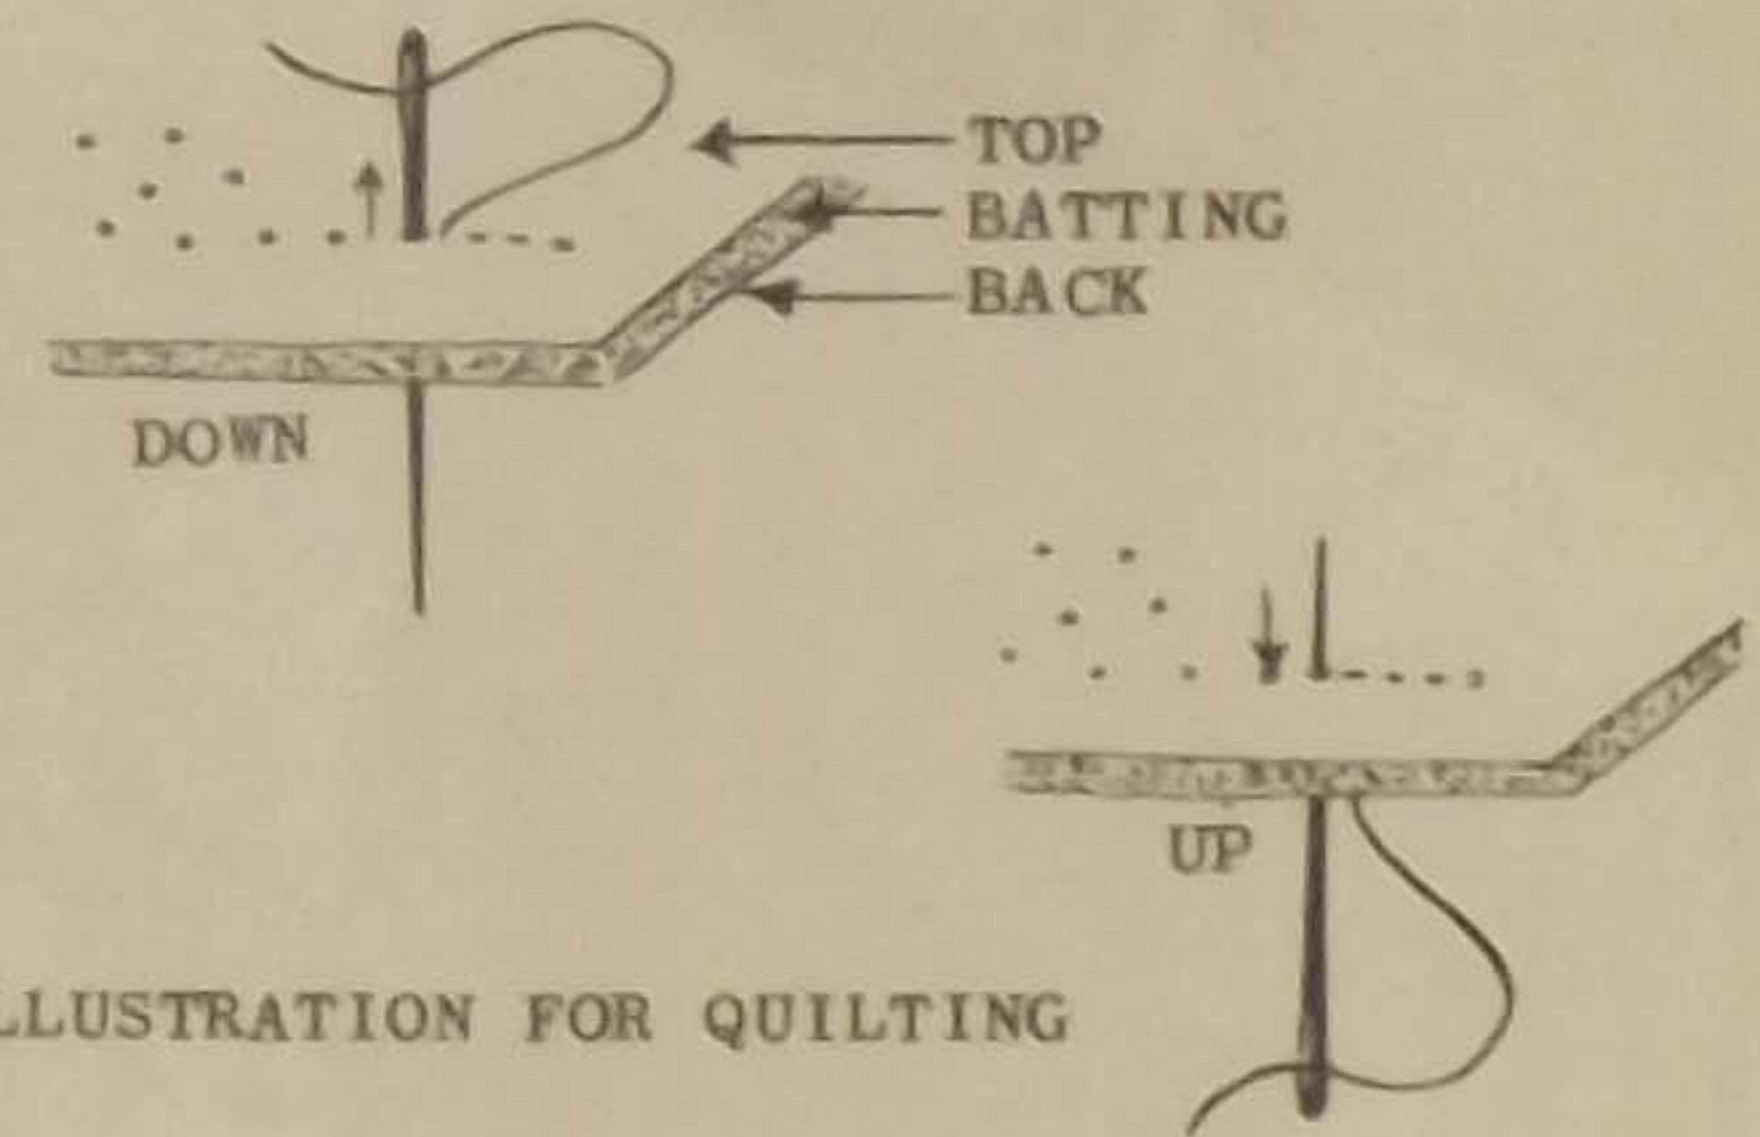

With a small running or darning stitch sew through layers where dots are indicated or quilt with conventional quilting stitch which is, one stitch at a time, pushing needle directly down then directly up through all all thicknesses - see illustration. The quilting stitch should be small and the same size on both sides of quilt.

**FINISHING INSTRUCTIONS:** Trim quilt 3/16" beyond stamped line. Encase edge with binding as follows: Open one fold of binding and turn end under 1/4". Place right side to right side of quilt (raw edges together) and stitch binding to quilt, using fold as a guide for stitching. When ends meet, overlap and slip stitch together. Turn binding to back of quilt and slip stitch last fold along stitching line - see illustrations.

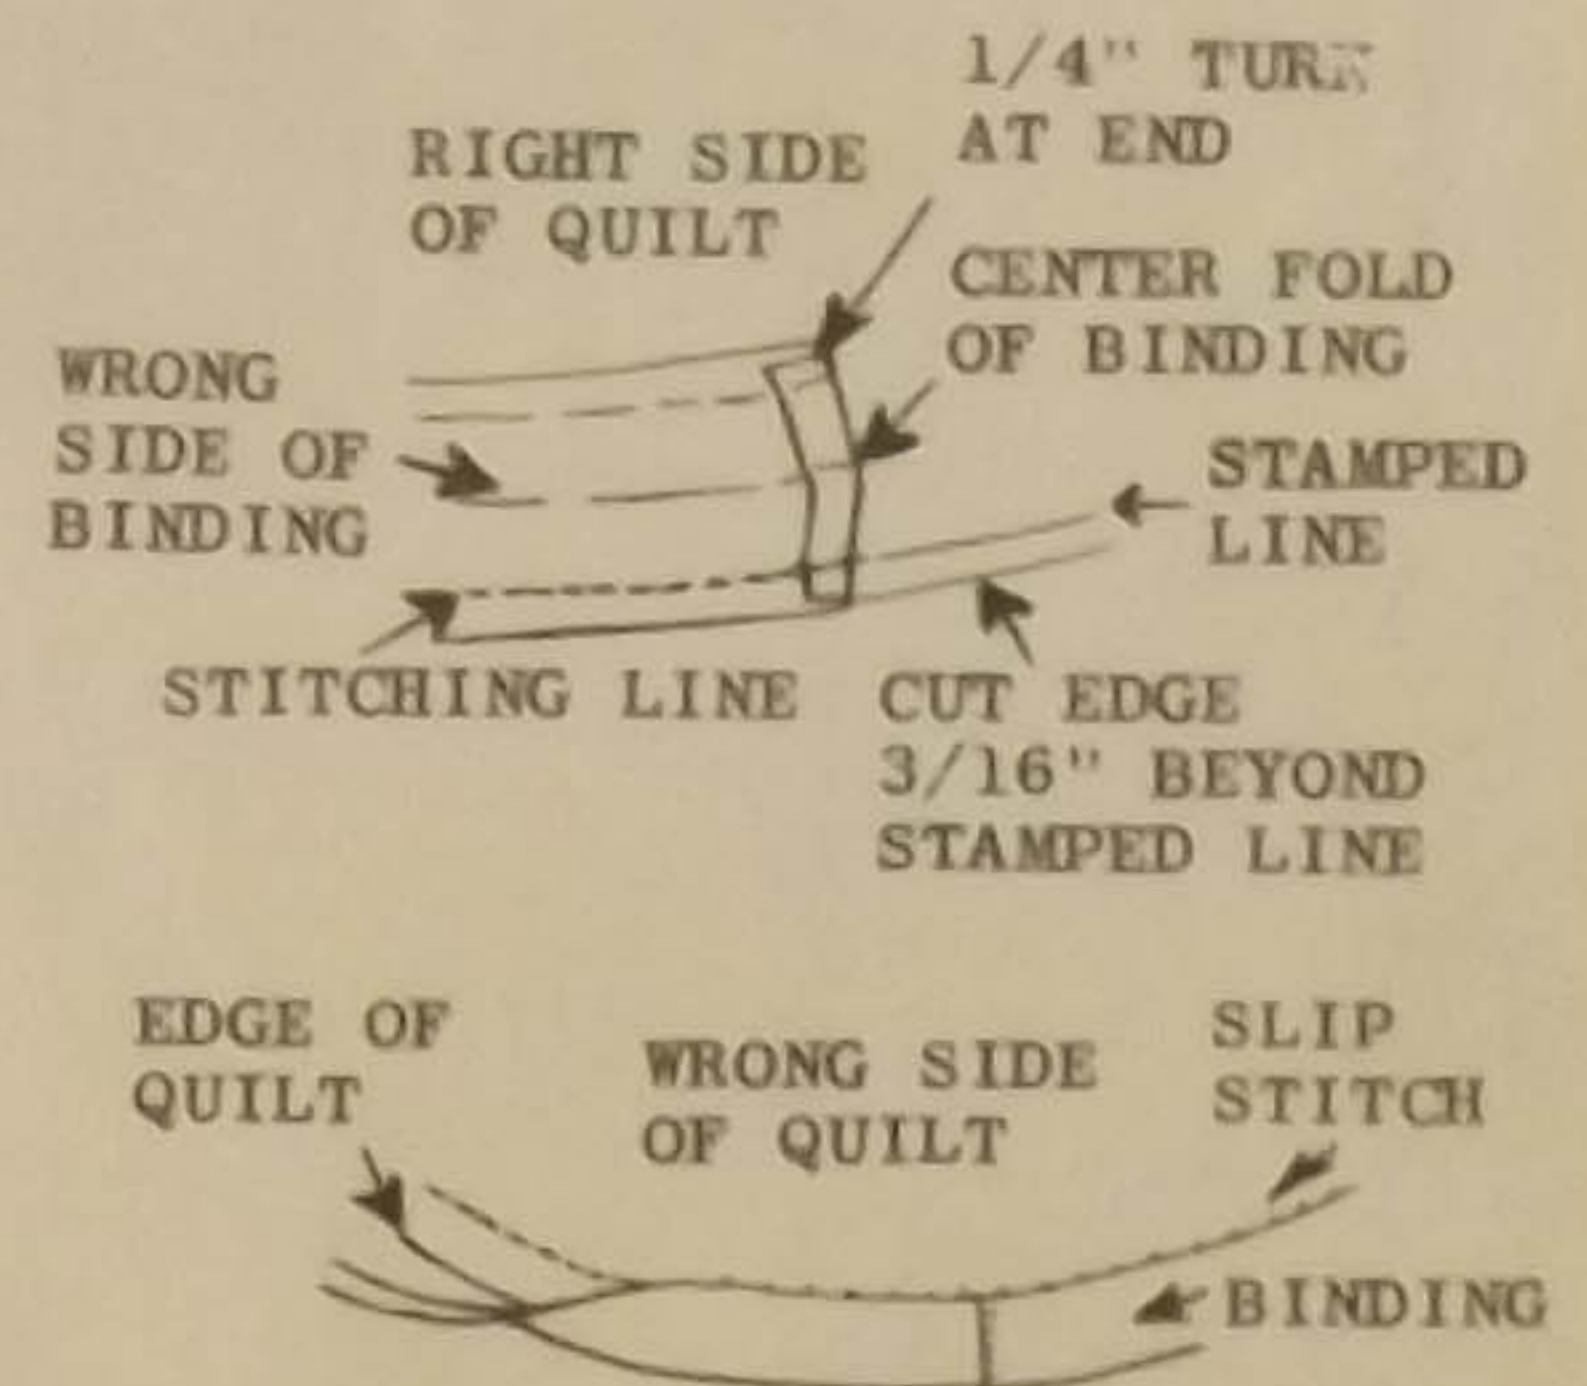

We recommend that the quilt be dry cleaned rather than washed unless very carefully done. Washing may make padding lumpy. If washed, extreme care should be taken as rubbing tends to pull padding apart and leave thin spots.

SLIP STITCH

WHEN JOINING STRIPS BE SURE TO HAVE THE LINES IN DESIGN MEET SO THAT THEY CARRY THROUGH FROM ONE SECTION TO THE OTHER.
