# Color Placement Diagram

(Use 3 strands throughout)

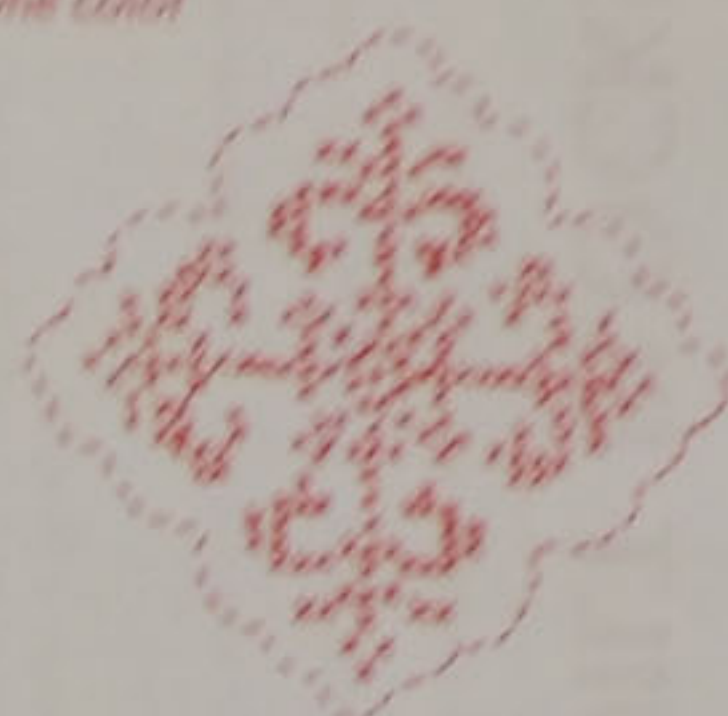

## A—"PANSY"

Color 1—Shaded Purples  
Color 2—Medium Green

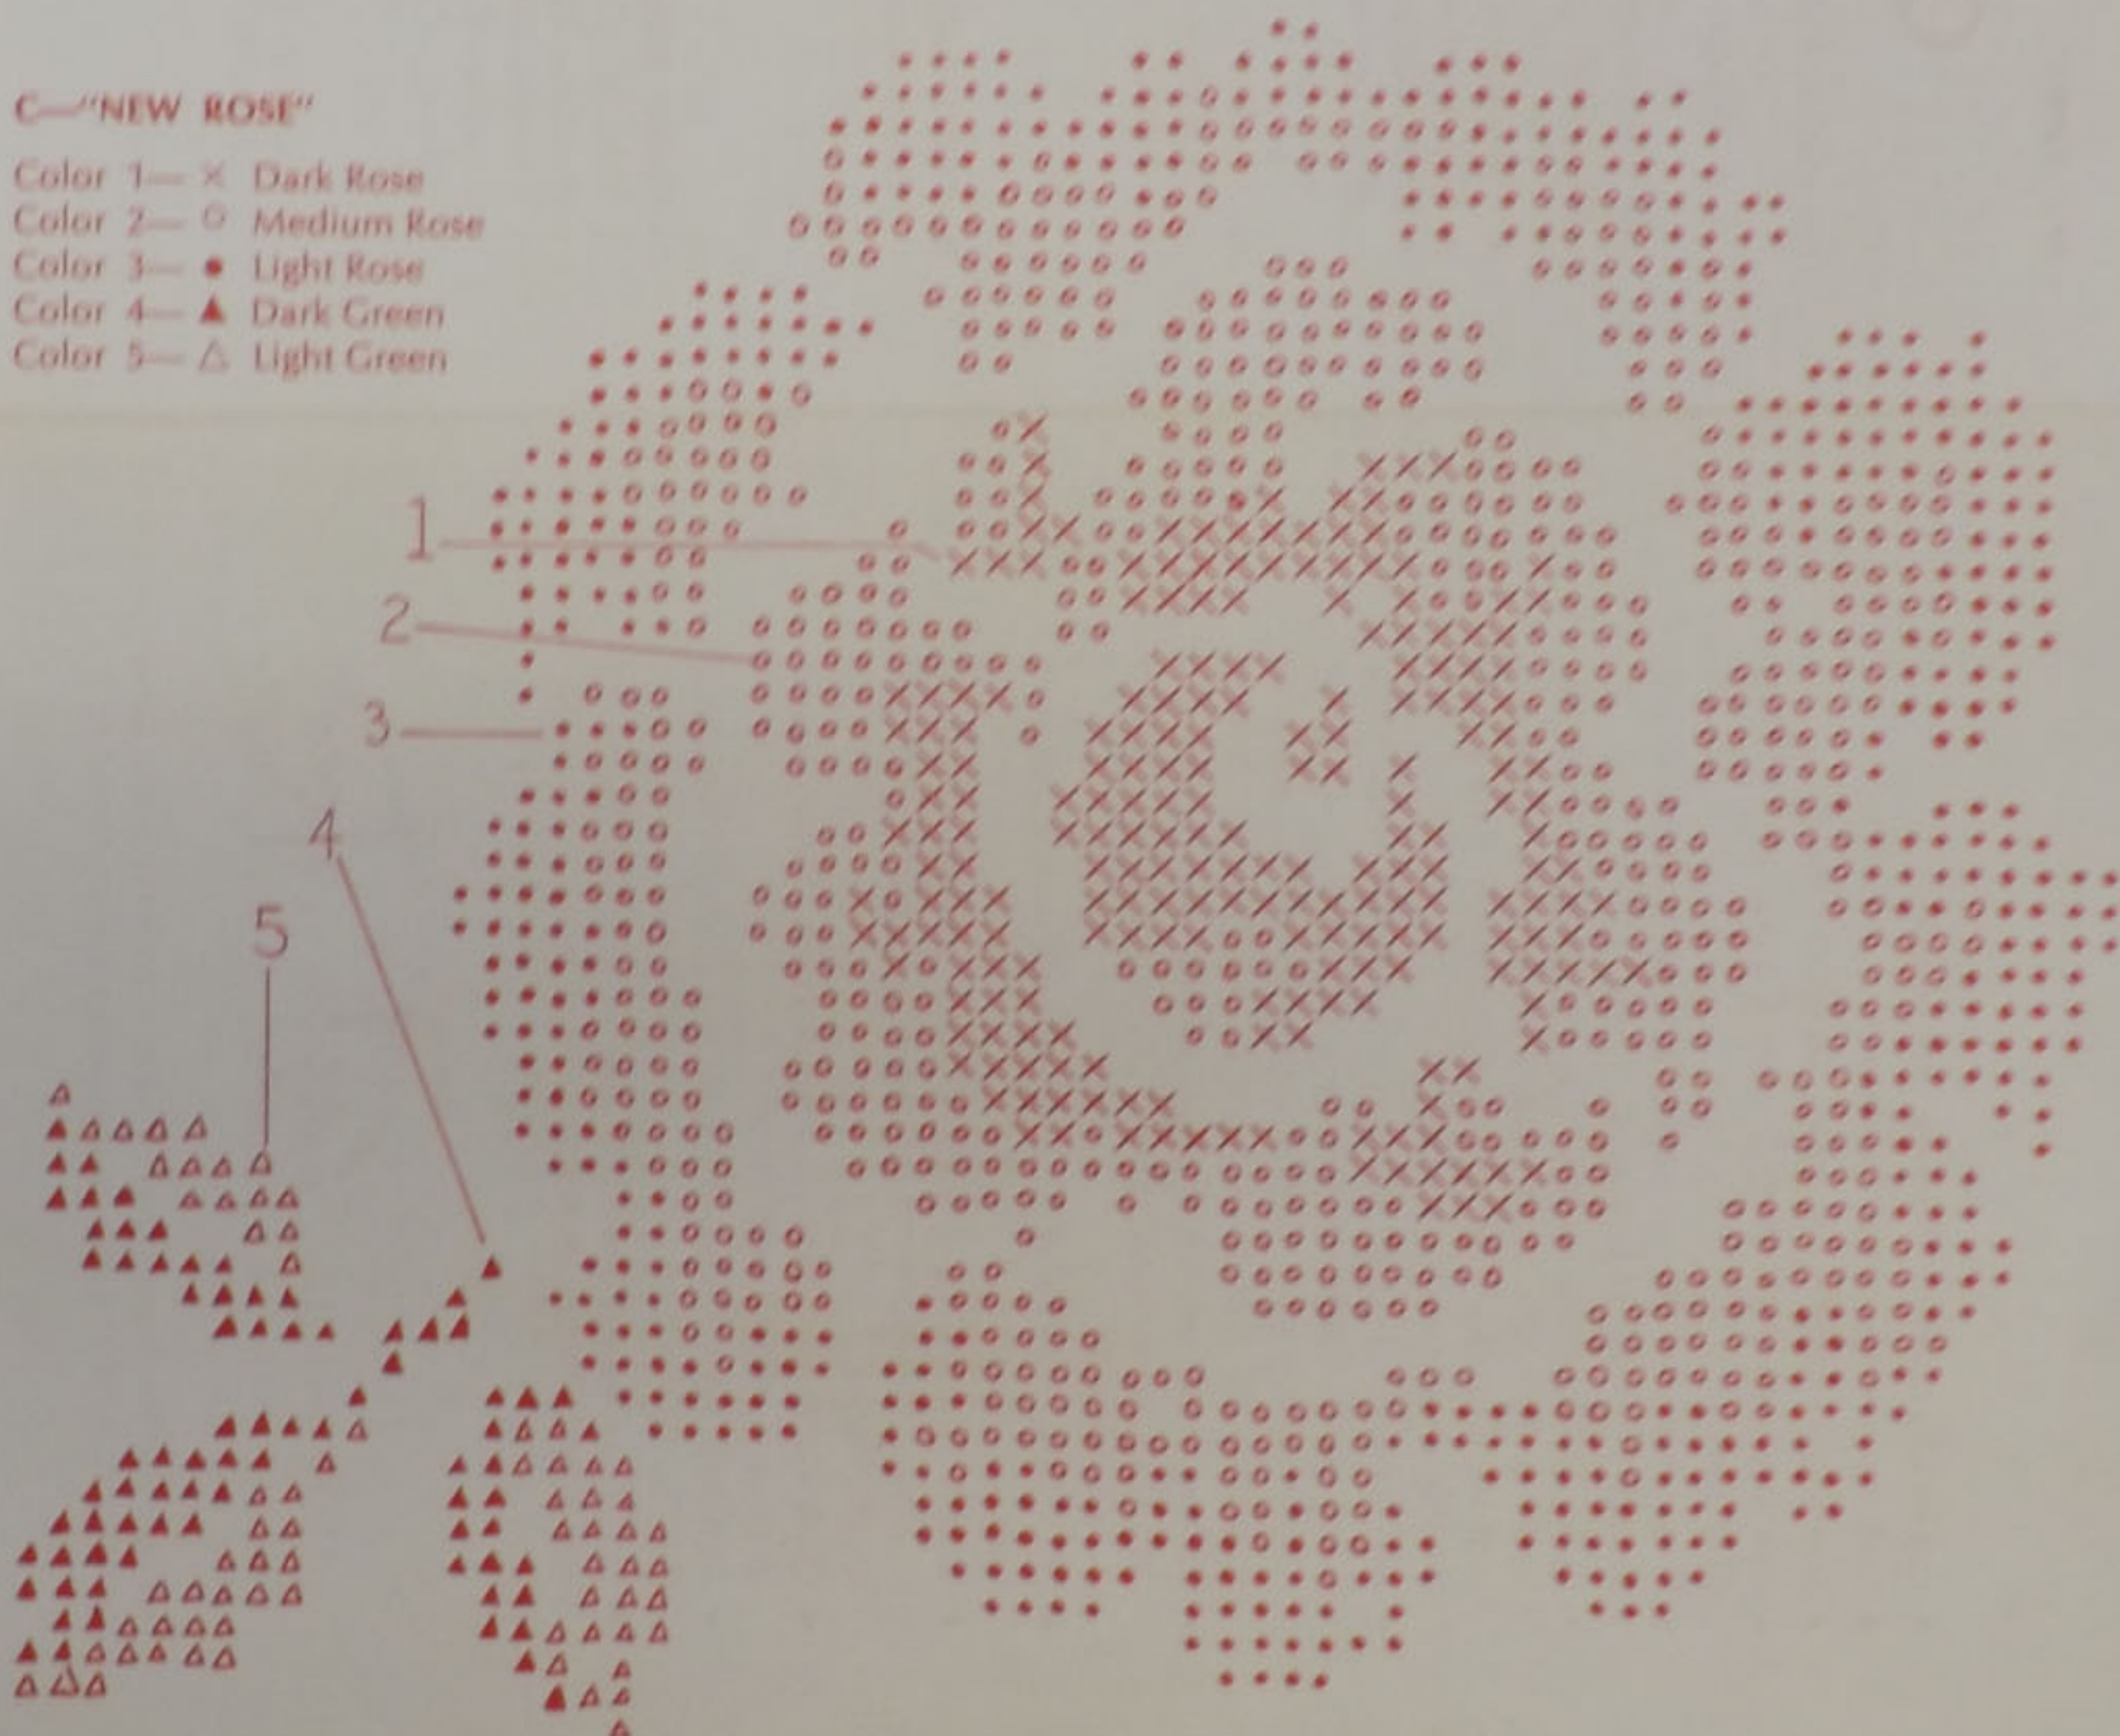

## B—"WILLIAMSBURG"

All one color

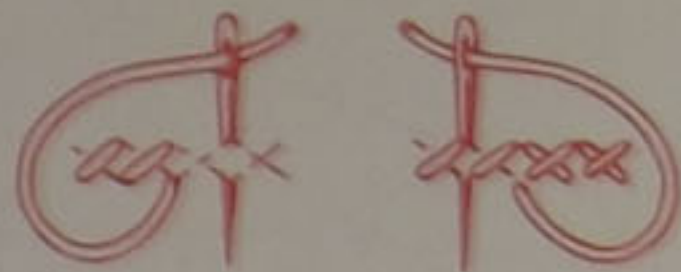

## C—"NEW ROSE"

Color 1—× Dark Rose  
Color 2—○ Medium Rose  
Color 3—● Light Rose  
Color 4—▲ Dark Green  
Color 5—△ Light Green

- Cut blocks apart on the long broken lines.
- Embroider each block individually.
- Sew blocks together in strips—6 blocks long.
- Use 4 strips for TWIN BED size; 5 strips for DOUBLE BED size.
- Press all seams flat on wrong side of assembled quilt top for a smooth appearance.
- Make quilt backing same size as assembled quilt blocks. Backing is usually same quality white material as embroidered blocks; however, you may wish to use a contrasting or harmonizing color.
- Use cotton batting for filling; cut same size as quilt top.
- Place cotton batting over wrong side of backing piece. Place quilt top over batting (right side up). Secure these 3 layers with pins to prevent materials from shifting.
- Starting at center, run basting stitches to each side and then diagonally to each corner. Baste around the 4 sides . . . remove pins.
- QUILTING may be done in the hand, with a frame or hoop.
- Take small running or back stitches through all 3 layers of material. Use a short sharp quilting needle and extra strong thread.
- Quilt along seam lines . . . then on dotted lines. Be sure to cover each dot with thread.
- ALWAYS WORK FROM CENTER TO OUTSIDE EDGE OF QUILT.
- Finish raw edges with bias tape binding in the width and color of your choice.

CROSS STITCH

Be sure that the top stitches of all crosses slant in the same direction and that each cross touches the one next to it.

NO. 1298

## QUILT BLOCKS

Six—18" x 18" blocks stamped on 1 piece material.

Buy 4 packages for TWIN BED . . . finishes approximately: 68" x 102"
