

QUILT BLOCKS

FOR YOU TO EMBROIDER

6 BLOCKS 18" x 18"

100% COTTON

ILLUSTRATED INSTRUCTIONS

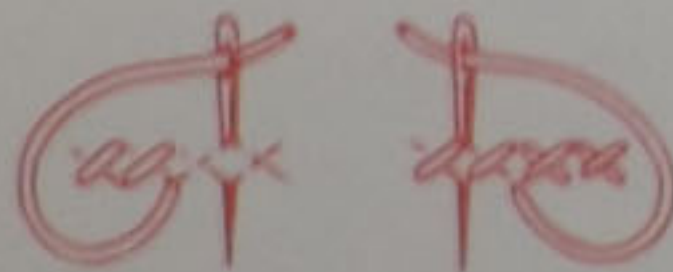

THREAD REQUIREMENTS: To complete these quilt blocks in 3 strands you will need 12 cones of 30 Strand Embroidery Thread (8 yds. each).

HISSEL BROS. INC. CHICAGO, ILL. 60618

MADE IN U.S.A.

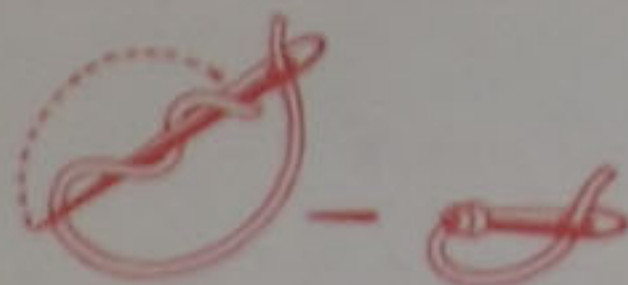

- Cut blocks apart on the long broken lines.
- Embroider each block individually.
- Sew blocks together in strips—5 blocks long.
- Use 4 strips for TWIN BED size; 5 strips for DOUBLE BED size.
- Press all seams flat on wrong side of assembled quilt top for a smooth appearance.
- Make quilt backing same size as assembled quilt blocks. Backing is usually same quality white material as embroidered blocks; however, you may wish to use a contrasting or harmonizing color.
- Use cotton batting for filling; cut same size as quilt top.
- Place cotton batting over wrong side of backing piece. Place quilt top over batting (right side up). Secure these 3 layers with pins to prevent materials from shifting.
- Starting at center, run basting stitches to each side and then diagonally to each corner. Baste around the 4 sides . . . remove pins.
- QUILTING may be done in the hand, with a frame or hoop.
- Take small running or back stitches through all 3 layers of material. Use a short sharp quilting needle and extra strong thread.
- Quilt along seam lines . . . then on dotted lines. Be sure to cover each dot with thread.
- ALWAYS WORK FROM CENTER TO OUTSIDE EDGE OF QUILT.
- Finish raw edges with bias tape binding in the width and color of your choice.
