QUILT BLOCKS

FOR YOU TO EMBROIDER

6 BLOCKS 18" x 18"

100% COTTON

ILLUSTRATED INSTRUCTIONS

THREAD REQUIREMENTS: To complete these quilt blocks in 3 strand,
you will need 14 skeins — Six Strand Embroidery Thread (8 yds. each).

FIXLER BROS., INC. CHICAGO, ILL. 60618

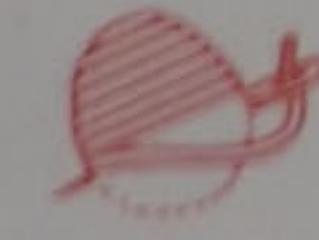

MADE IN U.S.A.

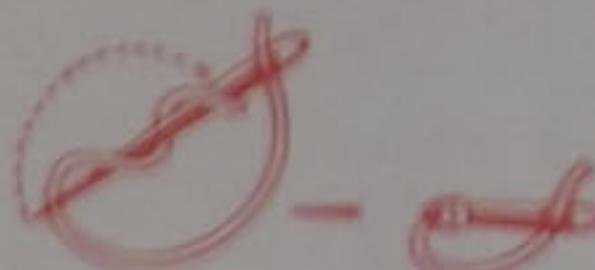

- * Cut blocks apart on the long broken lines.
- * Embroider each block individually.
- * Sew blocks together in strips—6 blocks long.
- * Use 4 strips for TWIN BED size; 6 strips for DOUBLE BED size.
- * Press all seams flat on wrong side of assembled quilt top for a smooth appearance.
- * Make quilt backing same size as assembled quilt blocks. Backing is usually same quality white material as un-embroidered blocks; however, you may wish to use a contrasting or harmonizing color.
- * Use cotton batting for filling; cut same size as quilt top.
- * Place cotton batting over wrong side of backing pieces. Place quilt top over batting (right side up). Secure those 3 layers with pins to prevent materials from shifting.
- * Starting at center, run backstitching stitches to each side and then diagonally to each corner. Backstitch around the 4 sides . . . remove pins.
- * QUILTING may be done in the hand, with a frame or hoop.
- * Take small running or back stitches through all 5 layers of material. Use a short sharp quilting needle and extra strong thread.
- * Quilt along seam lines . . . then on dotted lines. Be sure to cover each dot with thread.
- * **ALWAYS WORK FROM CENTER TO OUTSIDE EDGE OF QUILT.**
- * Finish raw edges with bias tape binding in the width and color of your choice.
