

"Grandmother's Favorite permits fancy quilting"

"This pattern will appeal to those who love to do fancy quilting such as the center square shows. For those who do not, a piece of flowered fabric may be substituted. This beautiful block is a clever arrangement of small triangles around the large square, & each triangle is $\frac{1}{8}$ th" from the edge."

"One color on a light background may be used for the whole quilt, or the blocks can be pieced of various colors according to one's fancy. Finished block is 12" sq., and makes a pretty pillow top if a wide border is added. If the light material used is not too thick it may be laid over design & traced off with sharp lead pencil. It is pretty to use colored thread which matches the dark triangles."
