

A Catalog  
**Quilt and  
 Quilting Patterns**  
 --- Old and New

*Truly—the perfect filling for quilts and all things quilted*

Mountain Mist Quilting Cotton comes in a large seamless sheet—in two sizes, 81 by 96 inches or 81 by 108 inches. Just the proper thickness to needle easily and to give that pleasing puffiness to the quilting design.

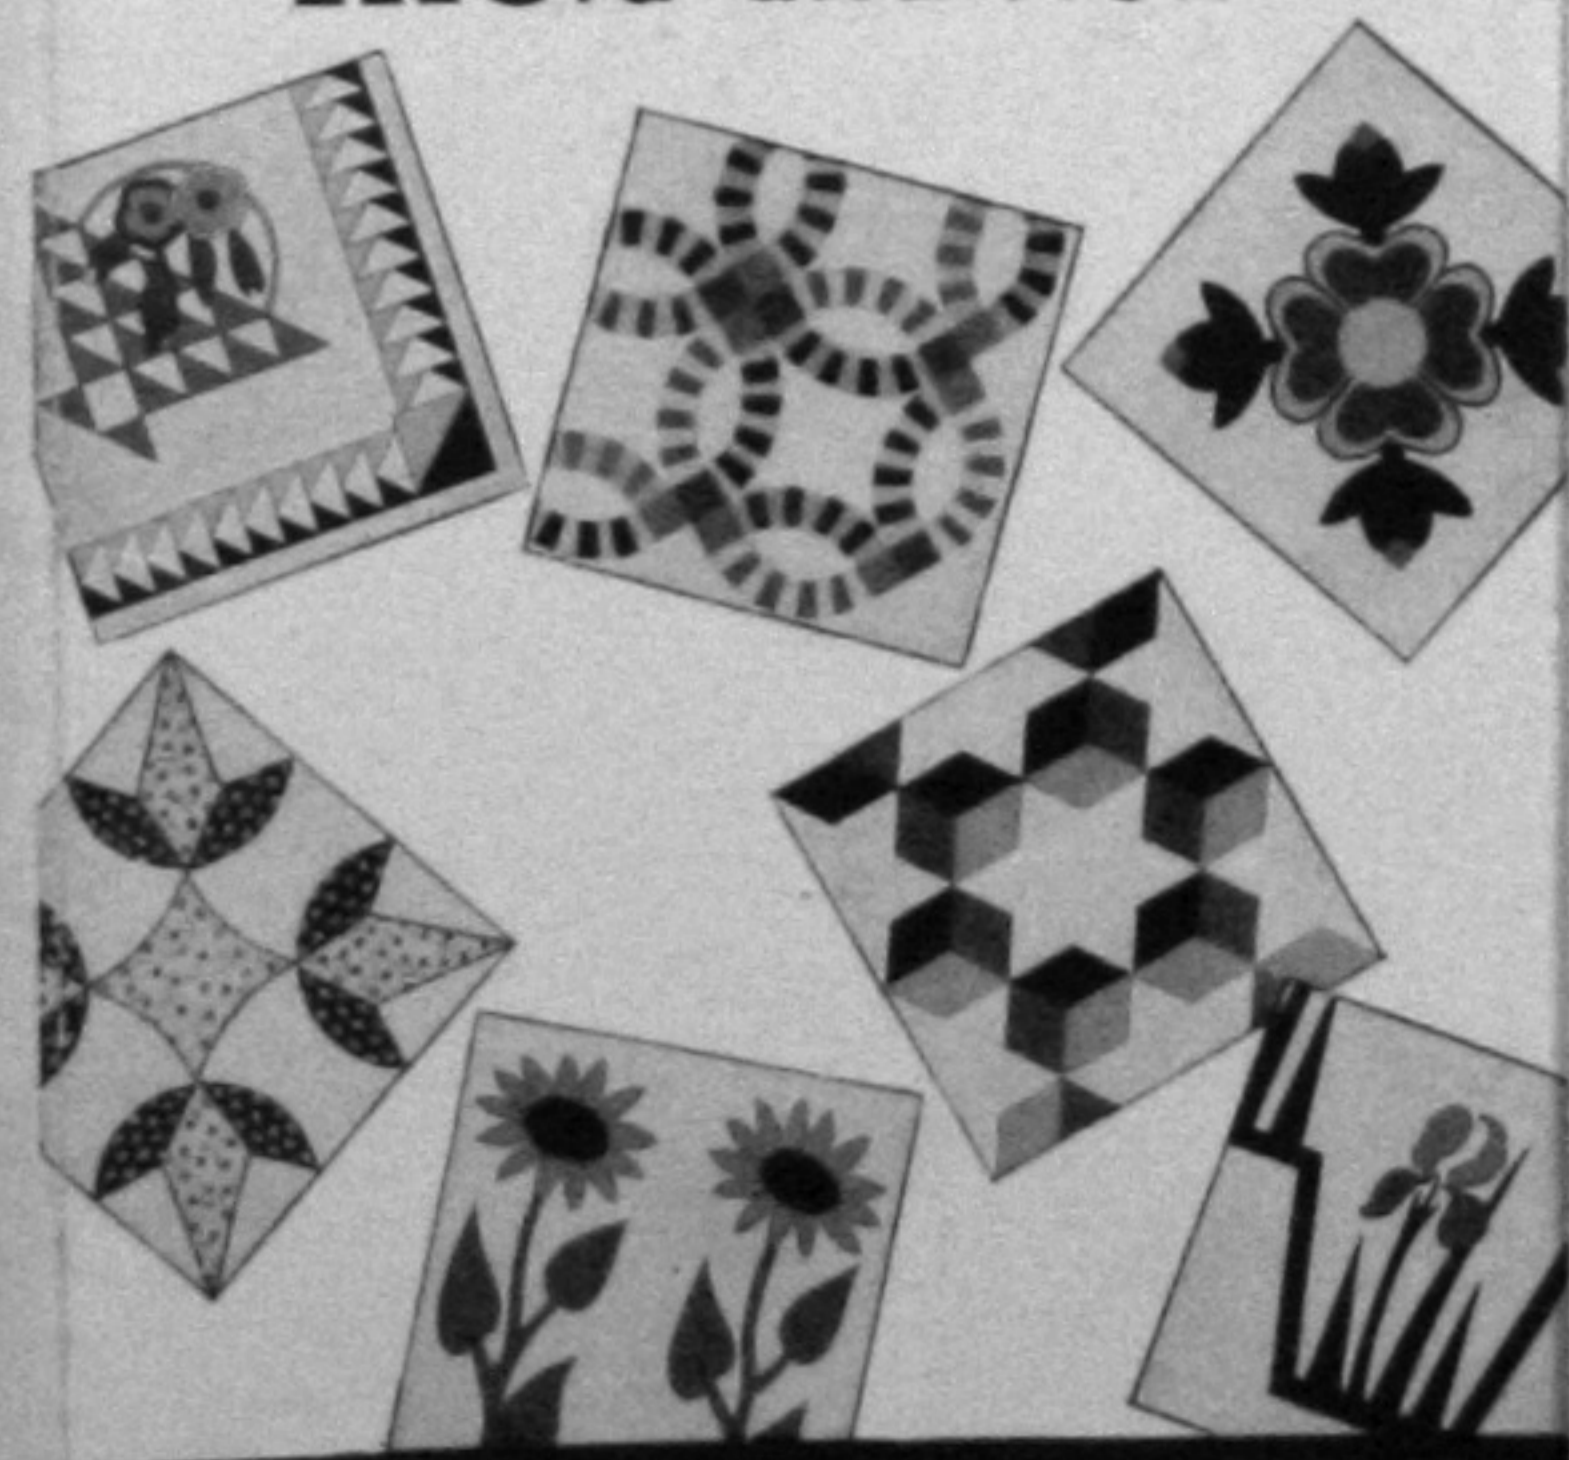

The cotton is pure white—so white that it will brighten the colors used in the quilt-top. Both surfaces are covered with "Glazene" which is a gosamer-like covering of the surface fibers—so thin and soft as to be almost imperceptible. "Glazene" enables us to use a cotton carded to a perfectly uniform thickness, to hold that thickness during manufacture and to maintain it in the hands of the quiltmaker. It prevents stretching of the cotton when it is being spread on the quilt back.

That is the reason Mountain Mist lays so smoothly—evenly—without thick and thin places. Another advantage to "Glazene" is that it eliminates linting and scuffing. The cotton does not cling to everything it touches and is easily adjusted when fitting the quilt top.

**REMEMBER!** Your quilt can never be re-filled or requilted. Be right the first time—Use **MOUNTAIN MIST**.

**WHERE TO BUY MOUNTAIN MIST COTTON.** Mountain Mist cotton is sold by Dry Goods and Department Stores. In the larger stores it is usually handled in the Domestic Department but in some instances in the Basement Department or in the Art Needlework Department. Ask for it by name—insist on the genuine, which comes only in the colorful wrapper with numerous quilt blocks printed in full colors. Mountain Mist is not put out under any other brand name, nor in any other style wrapper. If you are unable to obtain Mountain Mist locally, it will be sent to you postpaid upon receipt of \$1.00 for the 81x96, or \$1.10 for the 81x108 size. Try a store first.

 Quilting**

HOW TO ORDER PATTERNS

This catalog illustrates both Mountain Mist Quilt Patterns and Mountain Mist Quilting Patterns. Explaining the difference: The "quilt" patterns are for making the quilt-top for either Pieced or Applique quilts; the "quilting" patterns are used for marking the quilt-top with the design to follow when quilting. The illustrations of the quilt patterns are intended to give the general theme of the quilt. Many of the designs show a corner or a relatively large section of the quilt, while others indicate only a single block.

**MOUNTAIN MIST QUILT PATTERNS** are outline patterns printed on strong paper. The directions give all the information you need, including color suggestions and quilting plans worked out for each individual quilt. Each pattern has actual size diagrams of each and every part, placing guides, a diagram of the finished quilt and complete instructions for every step. You are told how many yards to buy for each different color or for each different cotton print required. The patterns are easy to use and easy to understand. Beginners, as well as experienced quilt makers find them satisfactory in every detail.

**MOUNTAIN MIST QUILTING PATTERNS** are perforated through heavy bond paper sheets 15 by 36 inches. There are either 4 or 5 designs on each sheet. Proper directions for using are included.

— PRICES —  
 Perforated Patterns for Quilting, per sheet.....10c  
 Printed Patterns for Quilt-tops, each.....25c

**Special Prices.** To obtain special prices you must send with your order a "Pattern Coupon", which is printed on the wrapper of Mountain Mist Cotton.

# MOUNTAIN MIST PERFORATED QUILTING PATTERNS

## DESIGNS FOR EVERYTHING QUILTED

IT'S THE QUILTING THAT MAKES OR MARS THE QUILT. This has been proved time and time again in national, state and local competitions. Quilts that show almost unbelievable skill in piecing or applique work and perfect taste in color combinations frequently rate far below the prize winners because of inferior quilting or choice of a fitting quilt design.

At least part of the explanation lies in the difficulty most quilters have in getting quilting patterns as easily as

patterns for making the quilt top. Now this difficulty is effectively remedied by the publication of old and new quilting designs in the perforated type of pattern.

As shown, the quilting patterns are prepared in sheets of 4 or 5 designs. The size of the sheet is 15 by 36 inches and the designs are perforated through heavy white bond paper and should last a long time. Directions for using the patterns are printed on each sheet and also instructions to make marking powder very economically.
