

MAY-MORN TULIP

Size, 72 x 92 inches or 92 x 92 inches. This includes a 6-inch border all the way around.

Material required: 6 yards of cream-colored soft muslin, 1 yard of green for leaves and stems, 6 yards of light blue, 6 yards of darker blue. Be sure to use soft shades of blue or old rose. This quilt will be much more effective if made on cream-colored muslin instead of white.

For size 92 x 92 inches there are 16 12-inch blocks (11½ inches finished) with tulip applique, 15 12-inch plain blocks and 18 half blocks of plain material cut diagonally to complete. The 12-inch blocks are set together diagonally with a strip made of whole and half 2½-inch squares (2 inches finished).

These squares are cut from the two shades of colors used in tulip. This same treatment of squares used as part of the 16-inch border makes it most unique. Bind quilt with ½-inch finished bias of cream-colored muslin.

Trace patterns on cardboard and cut carefully on line. Draw around these cardboard pieces on wrong side of cloth. Patterns do not allow for seams. Cut the cloth a seam (½ inch) larger and sew on pencil line.

Sizes changed to
72x100
84x100

Made in extra sizes
72x100 inches for twin beds
84x100 inches for double beds
