**MOUNTAIN MIST... The Perfect Quilt Fillings**

MOUNTAIN MIST Quilt Fillings come in large seamless sheets. Mountain Mist Cotton — 81 by 96 or 81 by 108 inches. Mountain Mist Dacron® Polyester — 81 by 96 or 90 by 108 inches. All of these fillings are pure white — so white that they will brighten the colors of the quilt-top.

Both surfaces of these fillings are covered with "Glazene"™ which is a gossamer-like covering of the surface fibers — so soft and thin as to be almost invisible. "Glazene" enables us to use a fiber — cotton or Dacron polyester — carded to a uniform thickness; to hold that thickness during manufacture and to maintain it in the hands of the quilt-maker. It prevents stretching of the batting. "Glazene" is the reason MOUNTAIN MIST is so smooth and even without "hills and hollows." It cannot stretch to thick and thin, places causing difficulties in quilting and poor results.

"Glazene" eliminates linting and scuffing. The fibers do not cling to everything they touch and are easily adjusted when fitting to the quilt-top. The Professional Quilter says that MOUNTAIN MIST is a joy to handle and to use. The new quilter finds that it simplifies learning to quilt.

The COLORFUL MOUNTAIN MIST WRAPPER showing many quilt-block designs in full color, has one of our latest working quilt patterns on the back of the wrapper.
