### Good Celery Is Even Better in This Dish

BY FLORENCE LA GANKE.

THE PAGE family was exceedingly fond of celery. It appeared on their table frequently. But after the hearts and inner stalks were eaten Nancy was sometimes at a loss to know how to use the outer pieces. Of course, the baby had celery puree frequently. Cream of celery soup and braised celery were favorites. One day Nancy concocted a new dish which proved most popular of all.

She used the outer stalks of celery, a cream sauce, cheese, toast and crumbs. The cream sauce called for one cup of milk, two tablespoons butter and flour and three tablespoons of grated cheese.

She melted butter in frying pan, added flour. When roux bubbled she poured in milk and let mixture cook until it had bubbled over the entire surface. Then she added salt, pepper and cheese.

She cooked 10 outer stalks of celery. This gave her about a cup and a half when cooked and cut into half-inch lengths. She toasted three slices of bread, put them in the bottom of the baking dish, poured the celery on top of toast and then put the creamy, cheese sauce over that. Buttered crumbs went on top. The dish was put in oven until crumbs were browned. The cover of the casserole was put on and the dish sent into the table and to the waiting Peter. It came back to the kitchen empty.
