HOROSCOPE QUILT PATTERN, NO. 4

NOW you probably have one whole block finished. In the center is the square on which you have applied the Aries sign. Around that are the four strips on which you have embroidered Aires characteristics. And in each corner you have applied a blue star.

Now let's plan to put another large square together before doing anything with the connecting strips.

The ancients believed the arrangement of stars which was riding high in the heaven during the last of what we now know as April and the greater part of May looked like the determined and sometimes stubborn bull. Their name for the animal was Taurus.

The legend has grown up that the favorite color of the people born during the period between April 21 and May 21 is soft rose or pale blue. With that in mind, I would suggest a color scheme for this block. In fact, I will suggest two. You may have another in mind.

The quilt has been planned with 12 six-inch blocks of blue on which the zodiac sign is applied in white or white ground figured material, and on which the name and date are embroidered in white.

But since some club members like to use scraps of material I would suggest that the zodiac sign, that is—the one given today, be applied on blue in a fast color print having small figures in blue or rose. The

embroidery would still be done in white.

You will know what to do with the pattern on the leaflet this week, for it is transferred, appliqued and etched or chain-stitched in the same way as pattern No. 1.

Next week you will get the four characteristics to be placed in the rectangles around the center block.

Do you like working on this quilt? Be sure to drop us a line to be included in the Quilt Club Corner which is part of the Beauty in the Home Column every day and also in the Women's Section Sunday. The club members are becoming very enthusiastic and looking forward to your letters.

Two pages of special interest for women are published each Sunday in The News. These pages treat of various subjects such as new fashions, accessories, room or home decorations, novel table decorations, party menus, and others of interest to women. You, too, will find these pages both enjoyable and helpful, we feel certain.
