HOROSCOPE QUILT—PATTERN NO. 19

By EDITH B. CRUMB.

THE zodiac sign, Sagittarius, for those born between November 23 and December 22 is a very simple dart or arrow and would be a very good opportunity to use a bit of checked material on the quilt.

Any color you wish may be predominating in this small design; but be sure to keep all colors light so that there will be no inharmonious effects when the quilt is seen as a whole, for the entire scheme will be considered then.

And here is just a little reminder. Have you written to the Quilt Club

Corner? If not, why not do so now and slip the note in the envelope the next time you send for a leaflet?

Even though you have written, drop another line, for the readers are looking for letters every day and will be delighted to hear from you.
