LAUREL WREATH QUILT—LEAFLET NO. 26

HERE is the Star Flower, and rightly named, too. Since it has been conventionalized somewhat it is possible to work this out in almost any color.

One suggestion is a soft reddish lavender in a tiny figure for the bottom part and then the same plain lavender; or pink print and plain; or two shades of blue. This flower is to be applied to a part with the pistil in white. Or 10½x12½-inch square.
