

# A Surprise Planned for Today Is Deferred Until Saturday

By EDITH B. CRUMB.

A SURPRISE was planned for you today—but I am the one who is surprised. This is the day that the new quilt was to be announced but inasmuch as it has not been received from the printers I will have to ask you to wait until Saturday. I know, however, that you are going to be delighted with this quilt design, for it is going to be such good pick-up work and is not a bit hard to do and yet it is one of those designs which appear to be intricate. It does not begin to be as difficult to make as the Nosegay quilt.

Today we have more space for letters and I am sure you are happy about that. Watch for the Corner on Saturday so that you can be one of the first to write for the new quilt pattern.

## Wants Another Pattern.

DEAR MISS CRUMB AND BEATRICE: I want to be among that big pile of letters on your desk Monday morning so here I am.

I am so glad you are to have more time on the air. You will be able to read a lot of letters now.

## Last Two Names Are New Members

TODAY we have the names of nine old members and two new ones. We have finished with the "A's" and getting a good start on the "B's" of which there is a very long list so save a good space in your scrap-book for these.

Mrs. C. H. Babcock,  
Warren,  
Michigan.

Helen Babcock,  
Box 162,  
Stanton, Mich.

Mrs. Chas. L. Backman,  
96 Moross rd.,  
Grosse Pointe Farms, Mich.

Gabrielle Baecheroot,  
3573 E. Hancock ave.,  
Detroit, Mich.

Mrs. Frances Bailey,  
16604 Welland ave.,  
Detroit, Mich.

Mrs. J. A. Bailey,  
3127 Hilton rd.,  
Ferndale, Mich.

Mrs. J. E. Bailey,  
16604 Welland ave.,  
Detroit, Mich.

Mrs. M. E. Bailey,  
3606 McClellan ave.,  
Detroit, Mich.

Mrs. O. H. Bailey,  
1988 Grand ave.,  
Detroit, Mich.

Mrs. Elizabeth Rausch,  
5837 Harding ave.,  
Detroit, Mich.

Mrs. Helen Stahl,  
3780 Richton ave.,  
Detroit, Mich.

I've enjoyed being a member of your Quilt Club and I want to thank you for the patterns I've received. I am making butterflies now and it's lots of fun. You will think I have a lot of nerve to ask for another pattern, but I would like the Trip Around the World if you have one to spare.

MRS. WM. CHRISTIE.

744 Withington street,  
Ferndale, Michigan.

Why, Mrs. Christie, you must not feel like that about sending for a pattern. We want everyone to feel so at home in the Quilt Club Corner that she will think nothing of making a request for a pattern. That is why we have them and the more you ask for the happier Beatrice and I are.

## Sunshine and Shadow.

DEAR MISS CRUMB: I sent my name in many moons ago, but this is my first letter to the Corner. Am I a member?

If the lady who wanted the Sunshine and Shadows pattern will make it like Mrs. Muellers' "Steps to the Garden," using light cream instead of white, light yellow instead of old rose, and orange instead of black, she will have the "Sunshine and Shadows." I am making one and it is as pretty as any of the pretty ones I have made. I intend to see Mrs. Muellers' beautiful quilt—we are neighbors.

MRS. MERRITT,  
17303 Westbrook,  
Detroit, Michigan.

You certainly are a member, Mrs.

Merritt and it was nice of you to start right in sending suggestions. That is what we want and I hope that the quilt-maker who wanted this information sees your letter, for if she will look at the picture of the quilt in the paper I know that she can work out the pattern very easily.

## About Rug-Making.

DEAR MISS CRUMB: I was interested in Mrs. Ryan's problem of getting a braided rug to lie flat as

## BEAUTY IN THE HOME EDITOR:—

Please enter my name as a member of The Detroit News Quilt Club.

Name . . . . .

Address . . . . .

City . . . . . State . . . . .

It was one that I had to work out for myself a few years ago and I found that by laying the rug on a table to sew it that it would not hump up or curl but lie perfectly flat and it really was very easy to do that way.

I, too, was glad to welcome back the broadcast and think it grows more interesting all of the time. So many of the names are becoming so familiar that it seems like meeting old friends when you and Beatrice read the letters.

Many thanks to The Detroit News for giving us this pleasure.

MRS. CHARLES E. PERRY,  
Farmington, Mich.

That was certainly nice of you, Mrs. Perry, to write in that hint about the braided rug; and I can see that it would work out just fine. We are happy to know that you like the broadcast and hope you feel at home in the Corner and will write frequently.

## Enjoys the Corner.

DEAR MISS CRUMB: I enjoy the Quilt Club Corner very much and have learned a lot about quilting through it.

I was at the quilt show last fall and I surely wouldn't miss one for anything. I hope that the next will be bigger and better.

How is Mrs. Fisher. I found her and Mrs. Galton very interesting.

MRS. H. LESLIE,  
8725 Continental Ave.,  
Van Dyke, Mich.

I am glad that you enjoyed the Corner and the shows so much, Mrs. Leslie.

Well, we are going to try to have the show this year a bigger one than ever. It is up to all of you to do that and I know that I can depend on each of you.

Mrs. Fisher is getting along just fine. I am going to run a story soon, showing pictures of these two sisters when they were little girls. It will be interesting so be sure to watch it.

A curtain roller or a rod run through both hems of a glass curtain will stretch curtains so they will not have to be ironed. Hang up until dry, then remove rods and press hems of curtains.

# Professor Sees End of Blonds

Says Coming Americans  
Will Be Darker.

The American blond is on the way out.

That doesn't mean they're packing up, getting passports and visas, to start for distant shores.

It means they're on the way out anthropologically.

Or, to put it more specifically and to convey the notions of Prof. Albert E. Jenks, University of Min-

nesota anthropologist, the American environment with its bright sunshine tends to produce more pigmentation, with the inter-breeding of its light and dark peoples—the Germans, English and Scandinavians on the one hand and the more heavily pigmented southern European peoples on the other—is slowly but definitely moving on to a time when there will emerge the "typically American race."

That result will be a people fairly tall, darker-haired, darker-eyed and darker skinned than the present average Minnesotan. And the head shape, according to Prof. Jenks, will be mesocephalic, or medium rather than broad or long.

How long will it all take? Prof. Jenks replied it will take "some little time." In the realm of anthropological changes the normal span of a human life may be little more than the single tick of the second hand of milady's wrist watch.

America with its pigment-producing sunlight, in Prof. Jenks' opinion, is hardly conducive to perpetuation of the blond varieties. The "natural American" is the American Indian, and he is the American climatic en-
