## Girls Meet Regularly in Summer and Winter

By EDITH B. CRUMB

If you have no Campfire members in your family, you have probably thought that all they did was to hike, eat lots of sandwiches, be able to light a fire without matches and cook with the least number of utensils and under the most trying circumstances.

But just let me change your mind about that. Of course, they do all of those things and more than I have space to relate.

Under the supervision of Mrs. Leontine Hardy as Guardian and

for truthfulness, honesty and dependability.

They certainly have something to show for their dependability, and it is a quilt in a star pattern. The American Red Cross donated the blocks already cut, the girls bought the white for the background, and when finished this quilt will be turned back to the Red Cross to be put to use where needed.

The quilt was started last spring and some of the girls work on it at home, meeting every other week in the kindergarten of the John R. Williams School for a session of sewing.

During the summer they spend a four-hour morning at a Recreation Park, but summer or winter, they may be depended upon to finish a project they have commenced.

THEY have not decided whether they will quilt or tie this top, but which ever it is it will be accomplished with the greatest care and finest of workmanship of which the girls are capable.

The stars in the quilt are of two different colors of checked gingham,

one being yellow and white and the other red and white, the combination being very attractive against the white background.

I think that I can make you feel quite well acquainted with Mrs. Hardy, the Guardian, by telling you that she is the daughter of Mrs. Gabrielle Baecheroot, one of our loyal Quilt Club Corner members.

#### Home Again

DEAR QUILT CLUB MEMBERS: It has been a long time since I greeted you. Are you all busy piecing? I am making a Double Irish Chain quilt in green and white, also one of Caesar's Crown and both are very pretty, I think. I was unable to see the display of quilts this year as I was up in northern Minnesota; but I have heard so much about the beautiful workmanship that I surely regret it deeply. Now I am back home won't you

write to me? I had an opportunity to interest a good many in quilts while I was away and left many of our News patterns. The quilt-makers up there were all so pleased to get them.

MRS. IDA PADGETT,  
328 Benjamin st., Romeo, Mich.

We are so glad to know that you are back again, Mrs. Padgett, and surely you should receive some "Welcome Home" notes. I know it must seem very good to you to be back and at your quilts again. Now that you are within our circle once more be sure to write letters occasionally for we do not want to lose you again.

Cacti plants grown in the house should be given air and light. To water set pots in a pan of water and do not remove until soil has become moist.
