

SLACKS are going to be seen on the sands too this year. The new ones are better tailored than ever, with the crease sometimes extended to make a flat little stitched-down pleat running to the waistline. Many are made of smooth wools, flannels, and cotton gabardine.

This year slacks, shirt, jacket, shorts and skirt—and sometimes even a shirtwaist sports dress—are all designed of the same material, so that they may be switched at will to make a variety of costumes.

Hearts and Flowers

This pretty quilt pattern is especially interesting to use because it calls for a combination of applique and embroidery. The hearts are of solid color appliqued, the scalloped and bell-shaped flowers can be either plain or a small print, with embroidered centers.

This design is for a 12 or 15 inch block. The whole quilt measures 80x95 inches when finished with a 10-inch border.

Ask for the HEARTS AND FLOWERS QUILT PATTERN, ID-75.

Leaflets are one cent each if called for at The Detroit News, General Motors or Majestic Building.

Use Gay Touch in the Nursery

A baby's world begins to change about the time he starts to walk and talk. He comes to believe in the reality not only of the living people around him, but also in the reality of his own fantastic
