Needles for Defense

By EDITH B. CRUMB

HOW the scene has changed!
 The old-time Friday afternoon
 meetings of the Quilt Club Corner
 are now Needles for Defense
 meetings, and instead of quilting
 needles and crochet hooks there
 are knitting needles and busy
 hands sorting materials to be
 made into lap robes.

The lap robes are coming in
 now and they surely look beau-
 tiful. Mrs. Charles Voelker
 brought one in made of velveteen,
 light green and black. She opened
 the seams and stitched them in

was help him interpret the in-
 structions and put on the snaps.
 He feels that he has found some-
 thing he can do for defense of
 his country.

"It has taken him about 15
 hours to do these but as he be-
 comes more accustomed to the
 machine and the needle he prob-
 ably will do better. I am very
 proud of him and think he will
 make a very attractive member
 of the Needles for Defense Club.
 Don't you?"

YES, WE DO. We appreciate
 the interest he has taken and the
 fine work he has turned out. If
 everybody is as willing as Brown
 we should have no trouble in
 turning out a large stock of
 supplies.

The knitting and sewing were
 certainly taken out quickly
 Wednesday. In the six hours that
 the office was open, there was an
 average of a garment a minute
 being handled. This includes both
 those given out and received.

Be sure to watch for Thursday's
 announcement.

Needles for Defense

The new office hours for
 Needles for Defense are Wed-
 nesday, 10 a. m. to 4 p. m.

Friday, 1 p. m. to 4 p. m.

Saturday, 10 a. m. to 1 p. m.

If you wish to send finished
 work in and leave it at the
 Information desk in the lobby,
 please be sure that your name
 and address are on the pack-
 age. A few have sent in ar-
 ticles without names—which
 makes it impossible to give
 the proper credits.

Knitters must be sure to
 return all left-over wool with
 the knitting.

position in a line right close to
 the line of joining. This gave the
 top a flat, neat appearance.

MRS. UNITA S. LEWIS, 5255
 Roosevelt avenue, writes:

"When my 15-year-old son,
 Brown, went to the Needles for
 Defense office for work for me
 and found that this work was
 going to be very hard for me to
 do because the material was dark
 and I have trouble with my eyes,
 he decided to get out the sewing
 machine and go to work.

"He has never done any sewing
 before except to sew on a button
 now and then when I did not
 have time to do it for him, but
 ever since the Pearl Harbor inci-
 dent he has wanted to do some-
 thing for his country and, being
 too young, he was disappointed
 at every turn. He has made two
 pairs of little boys' shorts all by
 himself. The only thing I did
