

Club Member Just Learns She Got 'Honorable Mention'

By EDITH B. CRUMB

YESTERDAY we received a letter from Goldie McClelland, 2457 Liddesdale avenue, telling us what a surprise she had just had, and I want to tell you about it, for there must be many more of you who have the same surprise coming to you. Here is her letter:

"DEAR MISS CRUMB:
"Did I get a surprise this morning? You know how it is when company comes, you generally use the best you have. Well, imagine my surprise when I went to put my "Sweet and Low" quilt on the bed to find an Honorable Mention ribbon on it. Oh, boy!

"You see, I did not know it was on there. I surely feel happy to have received it. When we went after the quilts they were all in paper bags, so I just put them away in the trunk without even looking at them, and I did not see the ribbon on the quilt at the Armory. It must have been put on on Sunday, as I did not look at my quilts on that day."

NOW, I know that many of you have done just what Goldie has—put your quilts away without looking at them, and as there were 200 Honorable Mention ribbons given out, you had better go up to that trunk and see if you can't find one on your quilt. They were not put on until Saturday night after the close of the show, but were all there bright and shining on Sunday. You just take a peek at your quilts and then let us know if you have a surprise too. Will you do that?

It is a long time since we have heard from Mrs. Lee Richard, 15757 Dolphin avenue, so we were happy to have a letter from her the other day, and I know you will want to read it too. Here it is:

"DEAR MISS CRUMB:
"I have been unable to attend

just a few of those who used to write in often.

"I would like to get in touch with Mrs. Maud S. Raymond. I met her at the Quilt Show and I have some quilt patches for her but I lost her address."

Next Friday I hope to have another set of quilt frames down at the club meeting, so if you have a quilt to put on the frames, bring it along and get some help with it. These frames will be just for us to use and will be there every Friday. They have been made from The Detroit News pattern.

Be sure to come tomorrow.

How to Be UN-popular

It really doesn't pay to stand near certain people when they open milk bottles. You either have to be sure you have on your raincoat or else you must be prepared to get milk in your eye.

These people go at milk bottles as

Some girls never learn how to

"WILL you settle an appointment for us?" asked voice on the phone yesterday. "Here is the question: Who invites the guests to a housewarming, the couple living in the house or their friends?"

The couple in the new home are the host and hostess, we explained, and naturally they invite the guests.

The voice asked us to write an article about housewarmings here are a few suggestions.

IF A COUPLE wish to send their house to a large number

Group for Room in Summer

give you an idea of what to do with two large chairs placed elsewhere in the room. While these are not alike in size and create a pleasing effect with the table and chairs making an attractive background. The chair at the left is covered in tapestry and is priced at \$39.75, while that at the right is covered in tan frieze, priced at \$70.00.

The Detroit News, Randolph 2000, Line 555.

Manners

ess Editor

When guests are invited to the house, they should be invited in groups and talk, and in the meantime they can help to refreshments from the table.

guests will want to wander through the house, and after inspection is over you might sit on the porch or lawn sipping cold drinks and talking, or there might be a few tables of bridge or even parlor games. (If your friends are parlor game addicts, why not send for our leaflet,

"Parlor Games for the Home" which lists dozens of popular games?

Use muffin tins for baking tomatoes, apples, stuffed peppers, onions, etc. They will keep their shape much better. Mold jelly also in muffin tins if you have individual molds, turn on plates, place hot towel over them and slip out easily.
