VIRGINIA HERRICK. Photo taken from an old newspaper.

When Miss Herrick read Kretsinger & Hall's ROMANCE OF THE PATCHWORK QUILT the idea of making a variety of blocks instead of whole quilts appealed to her. In 1956 her collection were displayed for the Cherokee Centennial Celebration and she donated them to the Sanford Museum in 1963. They have traveled extensively since then and were in California in 1974. Additional information available in the spring issue JOURNAL and the Winter '72 NIMBLE NEEDLE TREASURES.
