PACKAGE  
No. 33A

# PERFORATED QUILTING PATTERNS

ON SPECIAL BOND PERFORATING PAPER

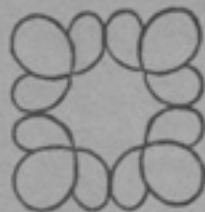

12-in. Feather Circle

9½-in. Feather Circle

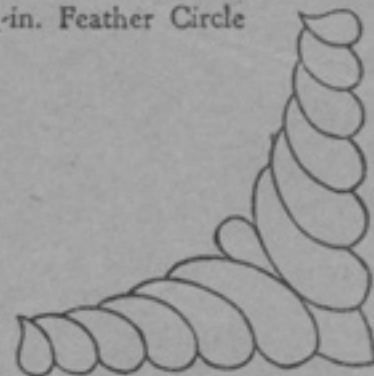

3½-in. Motif

4-in. Feather Square

3-in. Feather Border

7-in. Feather Corner

This Package Contains all of the patterns shown above, perforated ready for stamping, also blue stamping powder and poncette.

These patterns can be used for many stampings. The simplest way to transfer a design to cloth is through a perforated pattern. Each transfer is the same and lines are perfect. Stamping is done with special blue stamping powder, requires only a short time and the stamping brushes off when work is completed, leaving the quilting work very neat and clean, which means so much to the careful worker.

**INSTRUCTIONS:** Place pattern (wrong or rough side up) in position for stamping. Use tuft of cotton, dip in stamping powder and rub over perforations. Powder will dust off when quilting is finished. Ironing over the blue stamping with a hot iron will give it a firmer hold.

# GRANDMOTHER CLARK'S BLUE STAMPING POWDER

Produces clear stamping.  
Brushes off when quilting is completed.

## DIRECTIONS

Place perforated pattern (rough side up) on material to be stamped. Hold pattern down with weights while stamping. Dip tuft of cotton or soft material into powder and rub gently over perforations.

For a more permanent stamping, place paper over stamped cloth, iron with hot iron.
